ADDENDUM NO. #2

Bid #17281 – VSC for Collection and Recycle of Waste Oil
Original Closing Date: 02/04/2021 @ 2:00 PM CST
New Closing Date: 02/16/2021 @ 2:00 PM CST

NOTICE TO BIDDERS/PROPOSERS:

On 01/20/2021, you received notice of the above subject bid.

The City has extended the bid closing date to Tuesday, February 16th, 2021 @ 2:00 PM CST due to the timing for the Questions & Answers below.

Bidders Q&A:

1.) Q. "There's a separate line item for used antifreeze. Is Item #3 referring to pumping oil/water separators?"

A. Vacuum services is for collection of oil and water from the containment area around the oil tanks. The containment zone collects any oil that may be spilled while customers empty into the tank and also collects some precipitation, though the tanks are covered by an overhang. This service is typically needed 1-2 times per year that contains any overfill, spill. Oil & water from snow or rain. (Once-twice per year)

2.) Q. "What is the expected volume per collection tank? Can you provide an estimate of liquids vs solids?"

A. The North Drop Off Center at Industrial Road has one used oil tank and collection amounts typically range from 600-1,100 gallons per service. The South Drop Off Center at Lincoln Avenue has three used oil tanks and collection amounts range from 300 to 1,000 gallons per service. The Central Repair Garage, 2142 W Canal St. has two (2) oil tanks one (1) in ground and holds up to 4,000 gallons and one (1) above ground and holds up to 2,500 gallons. The Lincoln Garage, 3921 W Lincoln Ave, has one (1) 1,000 gallon tank and the Ruby Garage, 3025 W Ruby Ave has one (1) 1,000 gallon tank.

3.) Q. "What measures are in place to assure only used oil is in the waste stream at Public Recycling Drop Off Locations?"

A. Educational signage is in place at the used oil station and Drop Off Center attendants are available to direct and educate residents who visit both at the entrance as well as throughout the site to monitor and assist.

4.) Q. "Is the source of used oil waste streams from the City's pumping stations, crankcase oil, hydraulic oil, etc.?"

A. The pumping stations use ISO 36, 43, 56 oil and gear box lube.

5.) Q. "Does the used oil contain <5% water and <1000 ppm chlorine?"

A. For the Drop Off Centers, we are unable to confirm this information. However, we have not had past providers report issues of this nature or report a need to treat the collection as hazardous waste.

This certificate is to be signed and submitted with your [bid](#) response and returned before [2:00 PM](#) of the closing date to the Department of Administration – Purchasing Division, Room 601, City Hall, 200 E. Wells Street, Milwaukee, WI 53202.

ANY ADDENDUM NOT RECEIVED BY [2:00 PM](#) ON 02/16/2021 MAY RESULT IN [BID/PROPSAL REJECTION](#).

Sincerely,

Ethan Heffelfinger
Purchasing Agent – Senior
